Public Health Officers of the Council.

Medical Officer of Health

H.R. DUGDALE, M.B. Ch.B., D.P.H.

Resigned 31st September, 1947.
(Post now vacant)

Senior Sanitary Inspector

FREDERICK SHACKLOCK, M.R. San. I., M.S.I.A., A.M.I.S.E.

Additional Sanitary Inspector

HARRY CHADDERTON, M.S.I.A.
(Appointed March, 1947)

Surveyor and Water Engineer

ALBERT EDWARD CHALLIS, M. Inst. M.E.

URBAN DISTRICT COUNCIL OF MARPLE.

Council Offices,

Marple,

Cheshire.

To the Chairman and Members of the
Marple Urban District Council.

Mr. Chairman, Lady and Gentlemen,

Annual Report, 1947.

I have the honour to present my Annual Report for 1947. In the absence of a Medical Officer of Health I have included in the report all the information and statistics normally supplied in the Medical Officer's Annual Report.

I remain,

Your obedient Servant,

F. Shacklock,

Senior Sanitary Inspector.

SECTION A.

STATISTICS AND SOCIAL CONDITIONS OF THE AREA.

BIRTHS

Live Births :-

| | Total. | Male. | Female. |
|--------------|--------|-------|---------|
| Legitimate | 184 | 96 | 88 |
| Illegitimate | 6 | 5 | 1 |
| Total | 190 | 101 | 89 |

Birth Rate:- 15.34

Still Births :-

| | | | | | | |
|--------------|-----|-----|-----|-------|---|---|
| Legitimate | ... | ... | ... | 6 | 4 | 2 |
| Illegitimate | ... | ... | ... | - | - | - |
| | | | | Total | 6 | 4 |

Rate per 1,000 total (live and still) births. 30.61

DEATHS.

| | <u>Total</u> | <u>Male</u> | <u>Female</u> |
|--------|--------------|-------------|---------------|
| Deaths | 181. | 88. | 93. |

Death Rate: 14.54

Deaths from Puerperal Causes:-

| | | | |
|-----------------------------|-----|-----|------|
| (a) Puerperal Sopsis | ... | ... | Nil. |
| (b) Other Puerperal Causes. | ... | ... | Nil. |

Rate per 1,000 total (live and still births) Nil.

INFANTILE MORTALITY.

Deaths of Infants under one year of age:-

| | <u>Total</u> | <u>Male</u> | <u>Female</u> |
|--------------|--------------|-------------|---------------|
| Legitimate | 4. | 2. | 2. |
| Illegitimate | — | — | — |
| Total | 4. | 2. | 2. |

Ratios:

| | |
|---|-------|
| All infants per 1,000 live births. | 21.05 |
| Legitimate infants per 1,000 legitimate live births | 21.73 |
| Illegitimate infants per 1,000 illegitimate live births | — |

| | <u>Total</u> | <u>Male</u> | <u>Female</u> |
|---------------------------------------|--------------|-------------|---------------|
| Deaths from Cancer (all ages) | 29. | 9. | 20. |
| Deaths from Jeasles (all ages) | — | — | — |
| Deaths from Whooping Cough (all ages) | — | — | — |
| Deaths from Diarrhoea (under 2 years) | — | — | — |

Deaths Classified by Ages:

| <u>Age.</u> | <u>Total</u> | <u>Males</u> | <u>Females</u> |
|----------------|--------------|--------------|----------------|
| 0 - 1 years | 5. | 2. | 3. |
| 1 - 10 years | 4. | 3. | 1. |
| 11 - 20 years | — | — | — |
| 21 - 30 years | 1. | — | 1. |
| 31 - 40 years | 1. | 1. | — |
| 41 - 50 years | 12. | 9. | 3. |
| 51 - 60 years | 20. | 10. | 10. |
| 61 - 70 years | 43. | 19. | 24. |
| 71 - 80 years | 60. | 28. | 32. |
| 81 - 90 years | 32. | 12. | 20. |
| 91 - 100 years | 3. | 1. | 2. |
| TOTAL | 181. | 85. | 96. |

1939.

SECTION B.

GENERAL PROVISIONS OF HEALTH SERVICES IN THE AREA.

Laboratory Facilities.

(1) The Public Health Laboratory of the University of Manchester and the Stopping Hill Hospital carried out many of the bacteriological examinations required by the Council. During the year the following examinations were made:-

| | <u>No.</u> | <u>Pos.</u> | <u>Neg.</u> |
|---|------------|---------------------|-------------|
| Swabs for Diphtheria. | 46. | 1. | 45. |
| Blood for Typhoid Group. | -. | -. | -. |
| Faeces for Dysentery. | 1. | -. | 1. |
| Milk for T.B. | 58. | 5. | 53. |
| Milk for Bacterial Count (B.Coli.) | 121 | (Details in Sec: E) | |
| Milk for Methylblue Blue Reduction Test | | | |

(2) The Laboratory of the Cheshire County Council carried out the following examinations:-

| <u>Sputum for T.B.</u> | <u>Positive.</u> | <u>Negative.</u> |
|------------------------|------------------|------------------|
| 53. | 15. | 38. |

(3) The Manchester Public Health Laboratory carried out the following examinations of the water supply of the area.

| | <u>Bacteriological.</u> | <u>Chemical.</u> |
|------------------|-------------------------|------------------|
| Public Supplies | 37. | 3. |
| Private Supplies | 3. | 0. |
| | 40. | 3. |

Ambulance Facilities.

The Stockport Police Ambulances are available at a yearly retaining fee for all street accidents. They are also used for the transport of cases to and from hospital, a graduated fee being charged to the patient.

The ambulance attached to Stopping Hill removes patients who are under the care of the Public Assistance Committee.

The Hydro Isolation Hospital Ambulance is available for all cases of infectious disease.

No difficulties have been experienced.

Professional Nursing in the Home.

The Local Authority provides no nursing facilities.

There are, however, three District Nurses in the area, employed by each of the three District Nursing Associations of Marple, Marple Bridge and High Lane.

The Nurses are available for both General Nursing and Maternity work but not for infectious diseases.

The three associations are maintained entirely by voluntary contribution.

Midwives.

There are four practising midwives in the area supervised by the Cheshire County Council. Three of them are the District Nurses mentioned above.

Maternity and Nursing Homes.

There are no Maternity and Nursing Homes in the area.

Maternal Mortality.

Investigation of maternal deaths and cases of puerperal fever are carried out by the Cheshire County Council.

Hospitals.

Two beds are retained at Hyde Borough Hospital for infectious cases. No difficulty has been experienced in obtaining accommodation during the year.

Two further beds are retained at Hyde for Smallpox.

Tuberculosis is treated under the County Council Scheme and Dispensaries are maintained at Hyde and Stockport.

There is no Municipal or County Maternity Hospital in the area and both maternity and general cases are treated at Manchester (12 miles distant) or at Stockport either in the Infirmary or the Stepping Hill Hospital.

Nab Top Sanatorium of the Salford Corporation and the Orthopaedic Hospital of the Crippled Children's Help Society are situated in the district.

Clinics and Treatment Centres.

One School Clinic is held weekly in Marple and there are now four Welfare Centres maintained by the County Council, situated at Marple, Marple Bridge, High Lane and Mellor.

Mortuary.

The Mortuary for the area is maintained at the Council Offices and the improvements under consideration last year have now been carried out with the exception of the provision of a reserve water supply tank which is to be fitted next year.

SECTION F.

PREVALENCE OF AND CONTROL OVER INFECTIOUS DISEASES.

GENERAL. The following table shows the number of cases of each disease notified from 1939 - 1947.

| DISEASE | 1939. | 1940. | 1941. | 1942. | 1943. | 1944. | 1945. | 1946. | 1947. |
|-------------------------------|-------|-------|-------|-------|-------|-------|-------|-------|-------|
| Smallpox | - | - | - | - | - | - | - | - | - |
| Scarlet Fever | 15. | 11. | 8. | 14. | 37. | 5. | 25. | 29. | 8. |
| Diphtheria | 24. | 5. | 11. | 16. | -. | 14. | 23. | 3. | 2. |
| Enteric (Inc: Paratyphoid) | -. | 1. | -. | -. | -. | -. | -. | -. | -. |
| Erysipelas | 2. | 7. | 4. | 6. | 6. | 2. | 2. | 4. | 2. |

| Whooping Cough | 2. | 10. | 53. | 38. | 23. | 28. | 30. | 40. | 12. |
| | 56. | 148. | 421. | 158. | 126. | 98. | 199. | 128. | 172. |

Measles and Whooping Cough were not notifiable until October, 1939.

Age Distribution of Diphtheria.

| | 1939. | 1940. | 1941. | 1942. | 1943. | 1944. | 1945. | 1946. | 1947. |
|---------------|-------|-------|-------|-------|-------|-------|-------|-------|-------|
| 0 - 1 year | -. | -. | -. | -. | -. | -. | -. | -. | -. |
| 1 - 2 years | -. | -. | -. | 1. | -. | -. | -. | -. | -. |
| 2 - 3 years | 2. | -. | -. | 1. | -. | -. | -. | -. | -. |
| 3 - 4 years | -. | -. | 1. | 2. | -. | -. | -. | -. | -. |
| 4 - 5 years | -. | -. | 1. | 2. | -. | 1. | -. | -. | -. |
| 5 - 10 years | 6. | 4. | 5. | 4. | -. | 4. | 14. | 1. | 1. |
| 10 - 15 years | 6. | -. | -. | 2. | -. | 8. | 7. | 1. | -. |
| 15 - 20 years | 4. | -. | -. | -. | -. | 1. | 2. | 1. | -. |
| 20 - 35 years | 6. | -. | 3. | 4. | -. | -. | -. | -. | 1. |
| 35 - 45 years | -. | -. | -. | -. | -. | -. | -. | -. | -. |
| 45 - 65 years | -. | -. | 1. | -. | -. | -. | -. | -. | -. |
| 65 and over | -. | 1. | -. | -. | -. | -. | -. | -. | -. |
| TOTALS. | 24. | 5. | 11. | 16. | -. | 14. | 23. | 3. | 2. |

DIPHTHERIA. Number of children who completed a full course of Primary Immunisation during 1947, is as follows:-

| <u>Age.</u> | <u>Estimate of Population, 1947.</u> |
|---------------|--------------------------------------|
| Under 5 = 141 | Children aged 0 - 4 = 870 |
| 5 to 14 = 37 | " 5 - 14 = 1470 |
| Total 178 | Total 2340 |
| <u> </u> | <u> </u> |

At the 31st December, 1947 the total number of children aged 1 - 15 immunised was 1,713 = 73.20%

MEASLES.

An outbreak of measles occurred early in the year. The total of 145 cases for the year is the highest since 1941.

TUBERCULOSIS.

New Cases and Mortality during 1947.

| Age Period | New Cases. | | | | Deaths. | | | |
|----------------|------------|-----------|----------------|-----------|------------|-----------|---------------|-----------|
| | Pulmonary. | | Non-Pulmonary. | | Pulmonary. | | Non-Pulmonary | |
| | M. | F. | M. | F. | M. | F. | M. | F. |
| 0 - 1 year | -. | -. | -. | -. | -. | -. | -. | -. |
| 1 - 5 years | 1. | -. | -. | -. | -. | -. | -. | -. |
| 5 - 15 years | -. | -. | 1. | 3. | -. | -. | -. | 1. |
| 15 - 25 years | -. | -. | 1. | -. | -. | -. | -. | -. |

| 45 - 55 years | 2. | 1. | -. | -. | 1. | -. | -. | -. |
| 55 - 65 years | 1. | -. | -. | -. | -. | -. | -. | -. |
| 65 and upwards | -. | 1. | -. | -. | -. | -. | -. | -. |
| TOTALS | 8. | 5. | 2. | 3. | 1. | 1. | -. | 1. |

The number of cases remaining in the Tuberculosis Register at the end of 1947 was:-

| | <u>Pulmonary.</u> | <u>Non-Pulmonary.</u> |
|---------|-------------------|-----------------------|
| Males | 32 | 16 |
| Females | 29 | 10 |
| | <u>61</u> | <u>26</u> |

There were no non-notified Tuberculosis deaths and the efficiency of notification in the area is high.

SECTION C.

Sanitary Circumstances of the Area.

1. (1) Water.Marple Village and High Lane.

A first class water supply from Stockport Corporation is fed to this part of the Urban District but unfortunately owing to the need for scraping or renewal of old water mains and the need for larger mains caused by the development of the district there has not been a sufficient supply available at all times in some areas. This matter is receiving the attention of the Council and it is hoped that arrangements for improved distribution will be made next year.

Ludworth.

The water supplied to Ludworth from local gathering grounds has been regarded as unsatisfactory for some years, as the reports on samples from Devils Elbow and Cote Green Reservoirs indicate pollution does occur from time to time and apart from this a long period of drought renders these supplies inadequate.

A scheme for provision of a satisfactory supply from Stockport has been submitted to the Minister of Health and will be proceeded with when sanction is obtained.

Mellor.

The water supplied to Mellor comes from Harrymoor and from Tardom, both supplies are normally of good quality and sufficient quantity but may have to be augmented by a supply from Stockport in the future. This is provided for in the scheme mentioned above.

Analysis of Water.

Owing to the danger of pollution of the various water supplies in the Mellor and Ludworth areas frequent samples have been taken and submitted for bacteriological examination and in some cases chemical analysis.

Details of samples taken are as follows:-

Number of Samples Taken:-Bacteriological. Chemical.

| | | |
|------------------|----|---|
| Public Supplies. | 37 | 3 |
|------------------|----|---|

| | | |
|------------------|---|---|
| Private Supplies | 3 | - |
|------------------|---|---|

| | | |
|--|----|---|
| | 40 | 3 |
|--|----|---|

TOTAL 43.

Table showing results of the bacteriological examination of 40 samples:-

| <u>Source of Sample.</u> | <u>Wholesome.</u> 1947 | <u>Border Line.</u> 1947 | <u>Unwholesome.</u> 1947 |
|--------------------------|---------------------------|-----------------------------|-----------------------------|
| Devil's Elbow | 8 | 2 | 1 |
| Cote Green | 6 | 3 | 4 |
| Tardom | 2 | 1 | 1 |
| Jordanwallnook | 1 | - | - |
| Appletree | 3 | - | 1 |
| Stockport Corporation | 4 | - | - |
| Private Supplies | 2 | - | 1 |
| | 26 | 6 | 8 |

The results of the Chemical Analysis of three samples are satisfactory. These samples were taken from the Stockport Supply.

Rainfall.

The Records of rainfall taken at the Gauge - Urban District Council Depot, Rose Hill.

| Month. | Inches. | | No. of days rainfall. | | Total inches. | | Total Days. | | Remarks. |
|-----------|---------|-------|-----------------------|-------|---------------|-------|-------------|-------|--------------------|
| | 1947. | 1946. | 1947. | 1946. | 1947. | 1946. | 1947. | 1946. | |
| January | 2.38 | 4.33 | 16 | 17 | 2.38 | 4.33 | 16 | 17 | Lowest since 1941 |
| February | .39 | 6.05 | 12 | 20 | 2.77 | 10.38 | 28 | 37 | Lowest since 1934 |
| March | 4.65 | .93 | 26 | 9 | 7.42 | 11.31 | 54 | 46 | Highest since 1919 |
| April | 2.65 | 1.76 | 16 | 10 | 10.07 | 13.07 | 70 | 56 | Highest since 1944 |
| May | 2.49 | 1.43 | 16 | 14 | 12.56 | 14.50 | 86 | 70 | Highest since 1945 |
| June | 2.64 | 3.82 | 19 | 26 | 15.20 | 18.32 | 105 | 96 | Lowest since 1942 |
| July | 4.18 | 5.83 | 16 | 19 | 19.38 | 24.15 | 121 | 115 | Lowest since 1945 |
| August | .64 | 4.77 | 4 | 26 | 20.02 | 28.92 | 125 | 141 | Lowest on record. |
| September | 2.22 | 5.14 | 20 | 23 | 22.24 | 34.06 | 145 | 164 | Lowest since 1941 |
| October | .63 | .93 | 10 | 11 | 22.87 | 34.99 | 155 | 175 | Lowest since 1922 |
| November | 4.32 | 4.42 | 20 | 21 | 27.19 | 39.41 | 175 | 196 | Lowest since 1945 |
| December | 3.32 | 3.84 | 21 | 24 | 30.51 | 43.25 | 196 | 220 | Lowest since 1945 |

30.51 is the lowest total for the year since 1937.

(ii) Drainage and Sewerage.

Marple Area. Sewage works at Dooley Lane and at Strines provides for all but small parts of the area which are drained to septic tanks or on the conservancy system.

Mellor and Ludworth Area. The Sewage works at Low Marple provides for the major part of the built up area the remainder being unsewered and dependent on septic tanks or the conservancy system. The number of septic tanks throughout the district tends to increase owing to the modernisation of some of the old houses formerly without water closets.

The sewers have been extended to the following new housing estates, Roschill, Willow Grove, High Lane and Cote Green, also the sewer at Ludworth has been extended by 60 yards along Ley Lane to make provision for the building development.

2. Rivers and Streams.

A most attractive feature of the Urban District is the valley of the River Goyt. This is unfortunately marred by the very serious pollution by Trade effluent of various colour and odour which are discharged into the river from time to time (before it reaches this area) in spite of the efforts of the Officials of the Irwell and Joint Committee whose duty it is to prevent such pollution as far as practicable under existing legislation.

3. (i) Sanitary Accommodation.

The disposal of excrement in the district is dealt with by three methods Water carriage, pails and middens.

The following table shows the numbers of those in the district:-

| | |
|---------------------|-------|
| Water Closets | 4,750 |
| Waste Water closets | 295 |
| Privy Middens | 12 |
| Pail Closets | 302 |
| Dry Ashpits | 14 |
| Ashbins | 4,417 |

(ii) Public Cleansing.

The public cleansing service has continued to operate on the same lines as last year, two Karriger Bantams being operated by Council Employees to carry out a fortnightly collection of bins and a weekly pail collection. The collection of both bins and pails was seriously interfered with in the early part of the year owing to the heavy and protracted snowfall. It is on these occasions that the disadvantage of the two weeks interval is most noticeable as the two weeks can very easily become three weeks and the piling up of accumulations throughout the district becomes a serious matter. In order to reduce these difficulties and provide a better service, arrangements have been put in hand for a ten-day collection of refuse and salvage to commence next year. The collection of salvage, particularly waste paper, has been consistently maintained since 1944. The following table shows the yearly progress of salvage collection and sales since, 1939.

SALVAGE.

| Year | Textiles | | Metals. | | Paper. | | Bones. | | Batteries | | Kitchen Waste. | | Jars 1 lb. Round. | | Rubber. | | Yearly Weights | | Yearly Values. | | | | | | | | | | |

House refuse is disposed of at one controlled Tip at Torkington Lane.

Night soil is disposed of at the Sewage Works.

The number of employees is:-

| | |
|---------------|-----------------------------------|
| Drivers | 2 |
| Loaders | 8 (including salvage collectors.) |
| Tipmen | 1 |
| Salvage Balor | 1 |

The net cost of refuse collection and disposal for the financial year 1947-48 after deduction of £786 income from salvage is £3,510.

(iii) Sanitary Inspection of the Area.

The Sanitary Inspector reports the following inspections made during the year 1947:-

(a) Nature of Inspection.

| | |
|--|-----|
| Water Supply | 86 |
| Drainage | 558 |
| Stables and Piggeries | 39 |
| Fried Fish Shops | 22 |
| Movable Dwellings | 64 |
| Mechanical Factories | 37 |
| Non-Mechanical Factories | 7 |
| Bakehouses | 53 |
| Public Conveniences | 11 |
| Theatres and Places of Entertainment | 22 |
| Refuse Collection | 662 |
| Refuse Disposal | 175 |
| Rodent Control | 68 |
| Schools | 11 |
| Shops | 10 |
| Miscellaneous visits | 283 |
| Inspection of houses re complaint etc. | 421 |
| Reinspection of above | 515 |
| Inspection of houses under Housing Act | 9 |
| Reinspection of above | 2 |
| Overcrowding | 722 |
| Miscellaneous housing visits | 131 |
| Inquiry re infectious disease | 14 |
| Verminous Premises - revisits | 7 |
| Disinfection | 14 |
| Miscellaneous Infectious disease visits (Contacts etc.) | 18 |
| Inspection of Meat at Slaughterhouses and shops. | 90 |
| Inspection of Butchers shops | 11 |
| Fishmongers and Poulterers | 7 |
| Grocers | 29 |
| Greengrocers | 7 |
| Ice Cream Shops | 36 |
| Food Preparing Premises | 39 |
| Market Stalls | 6 |
| Restaurant Kitchens | 6 |
| Cowsheds and Dairies | 288 |
| Milk Samples. Bacteriological | 148 |
| Milk Samples. Tubercle Bacilli | 42 |
| Water Samples. Bacteriological | 40 |
| Water Samples. Chemical | 3 |
| Ice-Cream Samples | 4 |
| Miscellaneous Food visits | 9 |

Total 4,726

(b) Notices.

No. of complaints received 189

| Percolations of water etc. into premises | 6 | 6 |
| Dirty premises | 2 | 2 |
| Offensive Accumulations | 1 | 1 |
| Defective dustbins | 254 | 254 |
| Defective Ashpits (converted to Chemical closets) | 6 | 6 |
| Defective cesspools | 2 | 2 |
| Insufficient Sanitary Accommodation | 2 | 2 |
| Defects in factories | 12 | 12 |
| Vermin Infestation Rats and Mice Bugs | 70 | 62 |
| Other | 3 | 3 |
| | <u>632</u> | <u>590</u> |

(iv) Shops and Offices.

(a) Shops Act, 1934.

The major portion of the act is administered by the County Council. There has been no occasion for the Sanitary Inspector to take action in connection with the heating and ventilation of shops but steps have been taken to secure the provision of sanitary accommodation and washing facilities at two shops.

(b) Offices.

Action has been necessary under the provisions of the Public Health Act, 1936 relating to Sanitary Accommodation, ventilation or overcrowding of in only one instance.

(v) Camping Sites and Movcable Dwellings.

Licences.

Number of Applications received.

| | |
|-------------------------------------|---------------|
| (a) For use of sites | 1947. Nil. |
| (b) In respect of movable dwellings | 7 |

Licences were granted to each of the seven applicants, subject to the conditions imposed by the Council.

(vi) Smoke Abatement.

No statutory action has been necessary in connection with smoke nuisance and the proprietors of the few factories in the district have shown a willingness to co-operate in the prevention of atmospheric pollution.

(vii) Swimming Baths.

The Public Swimming Bath in the Urban District which was closed during the War has been fully appreciated by the public since the re-opening on 2nd July, 1945 both as a public hall in the Winter months and as a swimming pool in the Summer. The bath water is filtered and chlorinated by the plant installed at the baths.

The record of attendances of bathers for 1947 is given below.

| <u>Month.</u> | <u>Gents.</u> <u>1947.</u> | <u>Ladies.</u> <u>1947.</u> | <u>Boys.</u> <u>1947.</u> | <u>Girls.</u> <u>1947.</u> | <u>Total.</u> <u>1947.</u> | <u>Spectators.</u> <u>1947.</u> |
|---------------|-------------------------------|--------------------------------|------------------------------|-------------------------------|-------------------------------|------------------------------------|
| April | 560 | 302 | 2201 | 1516 | 4579 | 270 |
| May | 770 | 402 | 4303 | 3737 | 9212 | 352 |
| June | 824 | 592 | 5262 | 5949 | 12627 | 481 |
| July | 697 | 324 | 3193 | 1883 | 6097 | 441 |
| August | 524 | 230 | 876 | 308 | 1938 | 46 |
| September | 210 | 107 | 550 | 502 | 1369 | 8 |

Total No. of Bathers for six months 35,822. Total Spectators 1,598.

| | <u>Bathers.</u> | <u>Spectators.</u> |
|---------------------------|-----------------|--------------------|
| Total for 1947 (6 months) | 35,822 | 1,598 |
| Total for 1946 (6 months) | 34,256 | 2,226 |
| Total for 1938 (7 months) | 29,205 | 1,246 |
| Total for 1937 (7 months) | 25,992 | 912 |

The above figures show the great increase in attendances since prewar years.

The above figures show decrease in attendances from July owing to the scare of Infantile Paralysis.

(viii) Eradication of Bed Bugs.

No. of Dwellings found to be infested.

| | |
|----------------|---|
| Council Houses | 0 |
| Other houses | 0 |

Rodent Control.

This work has been carried out on the same lines as last year. The Sanitary Inspector who is Rodent Officer for the district acting as agent for the County Council has supervised the work of baiting and poisoning in sewers under the Ministry of Food sewer treatment scheme and the work carried out by the rodent operative who is engaged on making a survey of the district and treating all infestations systematically in accordance with the Ministry of Food Formula. The number of infestations discovered and treated during the year is:-

| | |
|--------------------|----|
| Rat infestations | 64 |
| Mouse infestations | 6 |

4. Schools.

There are five elementary schools and one secondary school in the Urban District. The water supply in all cases is satisfactory. The sanitary accommodation at the secondary school and three of the elementary schools is satisfactory comprising water closets of suitable type. Latrines or trough closets are provided at one school and pail closets at one school. These pail closets are to be converted to water closets in the near future.

6. Parks and Recreation Grounds.

The area of parks, recreation grounds and public open spaces in the district is as follows:-

| | |
|---------------------------|--------------------|
| Memorial Park | 12 acres. |
| High Lane Park..... | 10 $\frac{1}{2}$ " |
| Mellor Memorial Park..... | $\frac{1}{4}$ " |
| Brabyns Park | 90 $\frac{1}{4}$ " |

Recreation Grounds.

| | |
|----------------------|------------------------|
| Marple Village | 6 $\frac{1}{4}$ acres. |
| Windlehurst..... | $\frac{1}{2}$ " |
| Ludworth..... | 3 $\frac{1}{4}$ " |
| Mellor..... | 2 $\frac{3}{4}$ " |
| Hawk Green..... | 6 " |

Open Spaces.

| | |
|------------------|------|
| Barlow Wood..... | 20 " |
| High Lane..... | 3 " |

Total 154 $\frac{3}{4}$ acres

SECTION D.

1. Inspection of dwelling houses during the year.

Owing to the great demand for houses now and old and the shortage of manpower and materials it was felt the time was not opportune to attempt reconditioning or closing of dwelling houses which must inevitably follow inspection under the Housing Consolidated Regulations 1925 and 1932, consequently only urgent defects and nuisances prejudicial to health have been dealt with and notices for these served under the provisions of the Public Health Act, 1936 as shown in Section C of this report.

SECTION E.

Inspection and Supervision of Food.

(a) Milk Supply

There are 83 cowkeepers on the register, 40 of whom dispose of their milk by retail sale only, 23 by wholesale only and 20 part wholesale and part retail.

During the year 288 visits of inspection have been made to Farms and Dairies and substantial improvements have been made at 10 farms by co-operation with the farmers and land owners. Informal notices have been served in two instances and these have been complied with.

Milk Sampling.

The number of milk samples taken in the district and submitted for examination and test during the year is as follows:-

| | |
|--------------------------------------|-----|
| 1. Tuberculosis Test. | 58 |
| 2. Methylene Blue Reduction Test and | |
| B. Coli | 121 |

Results:

| | | |
|----------------------|--------------------|----|
| <u>Tuberculosis.</u> | Negative | 47 |
| | Positive | 5 |
| | Spoiled Experiment | 6 |

Methylene Blue Reduction Test and B. Coli.

| | |
|-------------------------------|----|
| Entirely satisfactory | 88 |
| Decolorisation Unsatisfactory | 9 |
| Bacillus Coli Unsatisfactory | 15 |
| Entirely Unsatisfactory | 9 |

The producers of the unsatisfactory samples were interviewed and advised on clean milk production.

The T. B. positive results were immediately reported to the County Medical Officer of Health and as a result of investigations made by the Veterinary Officers of the Ministry of Agriculture and Fisheries 3 cows were proved to be giving Tuberculous Milk and were slaughtered under the Tuberculosis Order.

Milk (Special Designation) Order, 1936.

The Council has issued two supplementary licences for the retail sale of Pasteurised Milk in the Urban District. During the year three more Farms have been brought up to the required standard for Accredited Producers licences to be issued to the farmers concerned and one to Tuberculin tested standard.

(b) Meat Inspection.

There are eighteen butchers shops in the Urban District, also one travelling shop and ten slaughterhouses. Only one licence has been issued during the year for slaughterhouse and one licence to slaughter.

Since the operation of the Centralised Slaughtering Scheme under the Ministry of Food in 1940, the slaughterhouses in the Urban District have not been used, the home killed meat being allocated from the Stockport No. 2 Ministry of Food Depot where your Sanitary Inspector takes over the duties of Meat Inspection one week in four.

The number of carcases examined by the Marple Sanitary Inspector during the year 1947 is as follows:-

| | |
|--|-------|
| Bovines including Bulls, Oxen, Cows and Heifers. | 1,091 |
| Calves | 809 |
| Sheep | 3,121 |
| Pigs | 6 |
| | — |
| Total | 5,027 |
| | — |

The quantity of this meat condemned as unfit for human food is:-

| | |
|---|------------|
| Weight of meat including offal affected with Tuberculosis | 21,832 lbs |
| Weight of meat affected with other disease | 5,650 lbs |
| | — |
| Total | 27,482 lbs |
| | — |

The number of complete carcases included in the above is as follows:-

| | <u>Bullocks.</u> | <u>Cows.</u> | <u>Calves.</u> | <u>Sheep.</u> | <u>Pigs.</u> |
|-----------------------|------------------|--------------|----------------|---------------|--------------|
| Tubercular | — | 24 | 5 | 2 | — |
| Other Disease | — | — | — | — | — |
| | — | — | — | — | — |
| Totals | — | 24 | 5 | 2 | — |
| | — | — | — | — | — |
